Opinion Poll Report June 2024

JN. 704824

Methodology and Weighting

- RED C interviewed a random sample of **1,000** adults aged 18+ online between 21st – 26th June 2024
- An online approach was used, among our bespoke online panel RED C Live.
- Interviews are conducted across the country and the results weighted to the profile of all adults.
- Panellists were chosen at random to complete the poll, with quotas set and weights allocated on age, gender, class, region, education level & working status to ensure a nationally representative sample.
- A further past vote quota and weight is included that looks at how people on our panel voted at the last general election and controls this to ensure it matches the actual results.
- An additional past vote weight based on how people voted in the last local election was also applied
- Vote intention data is also weighted to take account of claimed likely turnout on the day of an election.
- In all respects the poll was completed to opinion polling guidelines set out by both ESOMAR & AIMRO

REDC LIVE

Sample is drawn by RED C's own online panel, RED C Live, that consists of **over 40,000 participants**, recruited from online and offline means.

RED C are proud to have such a high quality resource in the market place

- ✓ Unlike most generic panels, our panellists are given **fair reward** for their time helping to ensure the highest levels of engagement and quality of response across our surveys.
- ✓ The RED C Live panel is **fully owned** by RED C. This ensures that panel members are not over-interviewed, enabling us to provide the highest quality standards to our clients.
- ✓ RED C uses a number of quota controls outside of age, gender and class, to ensure accuracy – including past vote behaviour, working status, & education.

The highest online research quality standards in the industry

Pre-Screening

All respondents are pre-screened and invited to take part in the survey based on the information held on them in the panel.

Invites

Panellists are recruited for surveys a maximum of 3 times per month for ad hoc projects and once every 3 months for tracker surveys.

Fair Reward

We pay respondents €1 for every 5 minutes of survey completion, much higher than the market rate

Logic Traps

We have inbuilt logic questions, and failures at these questions are rejected.

Time Delays

All surveys have in-built time delays from the appearance of questions to the presentation of response options.

The move to online polling

Testing during Election 2020 shows accuracy

RED C were delighted with the accuracy of our polling for the Business Post at the recent General Election 2020. The accuracy of our polls underlines the quality of our offering.

During the campaign we conducted 4 polls in total, two that were run on our telephone omnibus and published in the Business Post on the 26th January and the 2nd February, while we also conducted two further polls online using our RED Line omnibus service.

The results of these online polling tests were highly successful, with an average error of 0.80%, at a similar level to the exit poll which had 5000 interviews conducted on the day.

These results back up the quality credentials both of the RED C Live online panel generally, and also of the RED C sampling, weighting and quality control team tasked with ensuring we reach a representative sample through that panel.

It has proved that we can, with our expert knowledge of the political landscape in Ireland and our strict quality controls, utilise a more cost effective and flexible online approach for polling moving forward.

Based on the success of these tests we moved our regular tracking polls to a more cost effective online approach each month to measure trends in voters support for parties, with possible supplementary telephone polls where required.

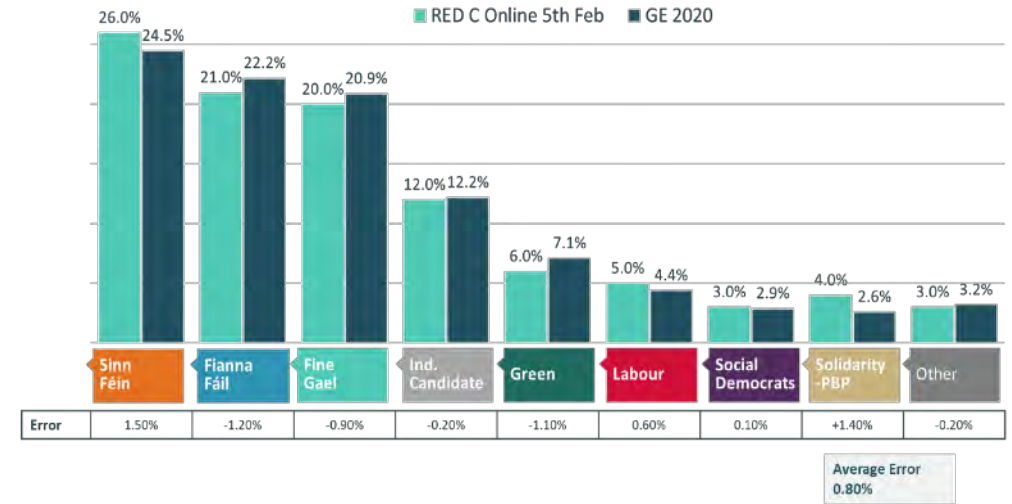

Polling is conducted on general election vote intention, and should not be compared with other second tier elections.

Final Online Poll Test During GE 2020

First Preference Vote Intention – RED C 5th Feb vs. Result

If the general election was tomorrow which party or independent candidate do you think you would give your first preference vote to? (Fast vote weighted)
[Base: All adults 18+ who will vote]

01

Vote Intention @ General Election

First preference vote intention – 30th June 2024

With change vs. last poll in May 2024

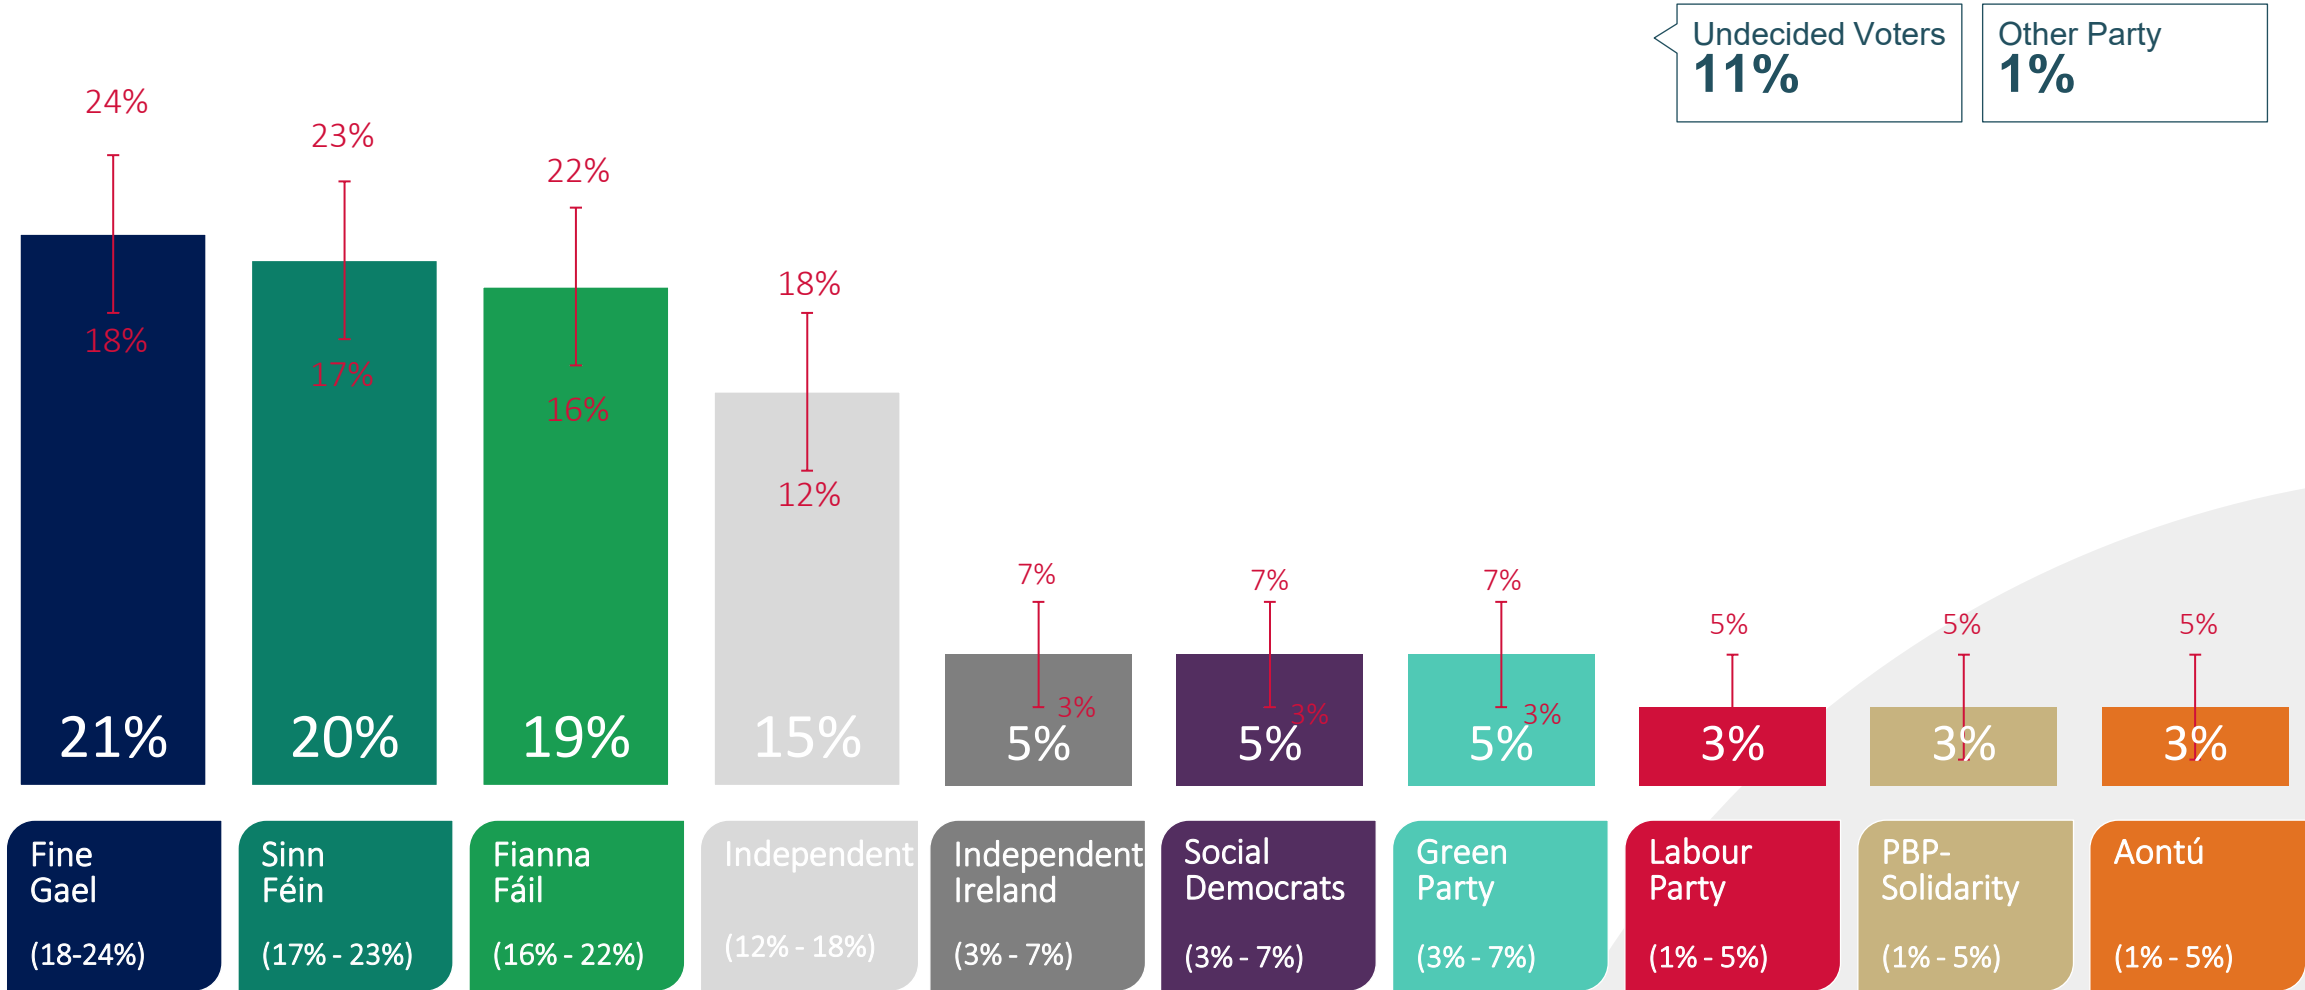

Q. If the general election was tomorrow which party or independent candidate do you think you would give your first preference vote to? (Past vote weighted)

(Base: All adults 18+ who will vote)

*Independents and Independent Ireland previously grouped together

First preference vote intention – 30th June 2024

The chart below shows the current claimed first preference party support, and also an estimate of the margin of error that should be applied to each, showing the possible range of support for each party.

() shows the possible range of support for each party based on an estimated average margin of error calculation

Note: Margin of error for smaller parties may be smaller

Core vote intention to turnout weighted data process

30 th June 2024	Core data	Core data with prompt for most likely party ⁽¹⁾	Undecided/ Non Voters Removed ⁽²⁾	Turnout Weighted ⁽³⁾
Fine Gael	17%	17%	20%	21%
Sinn Féin	17%	18%	21%	20%
Fianna Fáil	15%	15%	18%	19%
An Independent Candidate	12%	14%	16%	15%
Independent Ireland	4%	5%	5%	5%
Social Democrats	4%	4%	5%	5%
Green Party	4%	4%	5%	5%
Labour Party	3%	3%	3%	3%
People Before Profit-Solidarity	2%	2%	3%	3%
Aontú	2%	2%	3%	3%
Other	1%	1%	1%	1%
Would not vote	4%	4%		
Undecided/Refused	14%	11%		

Notes

1. For those that initially suggest they are undecided, we prompt with an extra question to ask which party they are most likely to vote for at this moment in time.
2. After this prompt we remove those that still say they are undecided, or would not vote, and re-proportion on those expressing a preference.
3. Turnout weighting is added based on a algorithm that combines data on how likely someone is to say they plan to vote at the next GE on a 10 point scale, and whether they actually voted at the last election (if they were eligible to do so).

First preference vote intention x demographics

Note: Results on sub sample of the population are based on a much smaller sample size per group, and as such have a much higher margin of error. The results should therefore be treated with caution

30 th June 2024		Gender		Age			Social Class		Region			
	Total	Male	Female	18-34	35-54	55+	ABC1	C2DE	Dublin	Rest of Leinster	Munster	Conn/ Ulster
Fine Gael	21%	21%	20%	16%	20%	24%	22%	18%	25%	17%	21%	18%
Sinn Féin	20%	21%	19%	24%	24%	14%	16%	26%	14%	24%	18%	27%

USC abolition favoured over income tax threshold changes

All demographics would prefer USC to be abolished than for the entry point for the higher rate of income tax to be further raised

I would **prefer** the government to **abolish USC** than to further raise the entry point at which the higher rate of income tax applies

Neutral

I would **prefer** the government to **further raise the entry point** at which the **higher rate of income tax** applies than to abolish USC

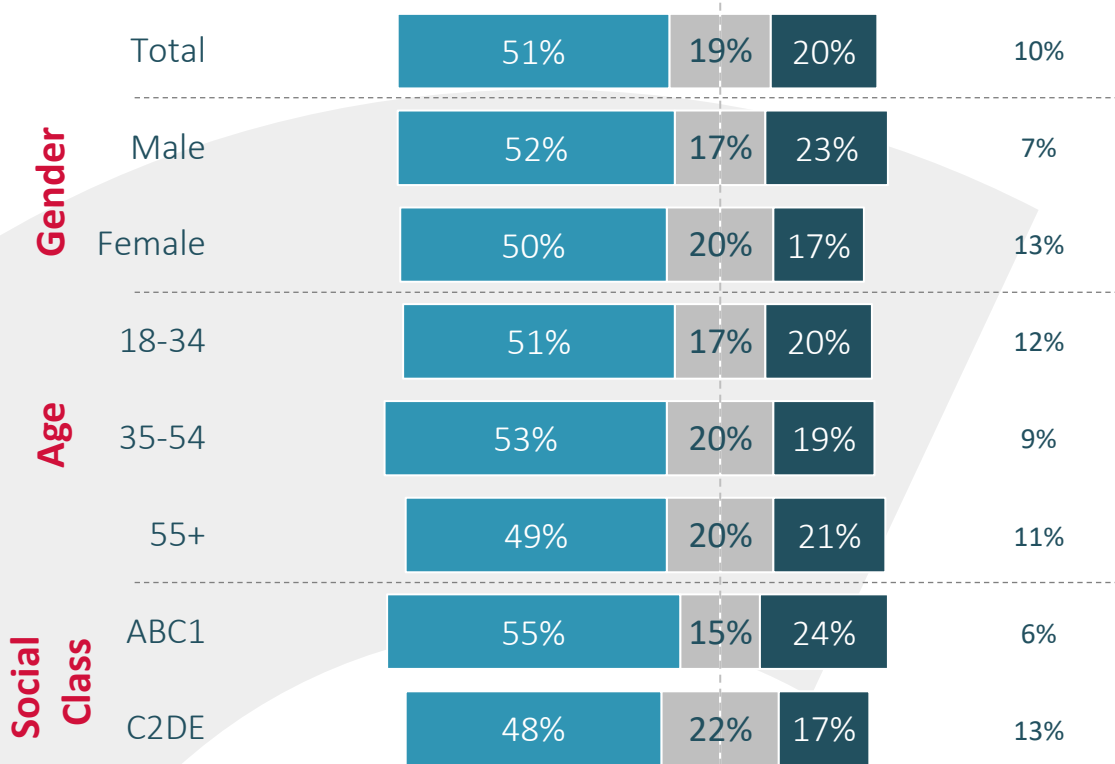

Don't know

I would **prefer** the government to **abolish USC** than to further raise the entry point at which the higher rate of income tax applies

Neutral

I would **prefer** the government to **further raise the entry point** at which the **higher rate of income tax** applies than to abolish USC

Don't know

(Base: All adults 18+)

Please pick the statement that best represents your view when it comes to these topics that have been in the news recently

Preference for election to be held this Autumn

Sinn Féin and independent voters are particularly likely to favour an October or November election over one next spring

I would prefer the next General Election to be this *October or November* before the government's full term

Neutral

I would prefer the next General Election to be next *March* at the end of the government's full term

Don't know

I would prefer the next General Election to be this *October or November* before the government's full term

Neutral

I would prefer the next General Election to be next *March* at the end of the government's full term

Don't know

(Base: All adults 18+)

Please pick the statement that best represents your view when it comes to these topics that have been in the news recently

No consensus emerging on issue of Aer Lingus pilot strikes

Just over a third support Aer Lingus pilots, while a third do not support them, and almost 3 in 10 have no strong opinion. Under 34s and Sinn Féin supporters are more likely to support the pilots.

I support Aer Lingus pilots in their industrial action for higher pay Neutral I do not support Aer Lingus pilots in their industrial action for higher pay Don't know

I support Aer Lingus pilots in their industrial action for higher pay Neutral I do not support Aer Lingus pilots in their industrial action for higher pay Don't know

(Base: All adults 18+)

Please pick the statement that best represents your view when it comes to these topics that have been in the news recently

Contention arising on Ireland's role in defending seabed

Slightly more favour Ireland taking part in EU military initiatives to defend critical seabed infrastructure than oppose, but this is short of a majority. Support is strongest among both Fine Gael and Fianna Fáil voters.

I am **in favour** of Ireland taking part in **EU military initiatives** to defend critical seabed infrastructure

Neutral

I am **opposed** to Ireland taking part in **EU military initiatives** to defend critical seabed infrastructure

Don't know

I am **in favour** of Ireland taking part in **EU military initiatives** to defend critical seabed infrastructure

Neutral

I am **opposed** to Ireland taking part in **EU military initiatives** to defend critical seabed infrastructure

Don't know

(Base: All adults 18+)

Two thirds of Sinn Féin voters favour McDonald remaining

Voters in general are more likely to think Sinn Féin would perform better with a new leader, but most Sinn Féin voters wish for McDonald to stay. McDonald is favoured less by older demographics and higher social grades.

Mary Lou McDonald is the best person to lead Sinn Féin into the next general election

Neutral

Sinn Féin would perform better in the next general election if there were a change of leadership

Don't know

Mary Lou McDonald is the best person to lead Sinn Féin into the next general election

Neutral

Sinn Féin would perform better in the next general election if there were a change of leadership

About RED C

RED C Group conduct research worldwide from Dublin & London

The RED C Research Group is made up of the RED C and Relish brands, with support from our partners in WIN.

RED C Ireland

Our founding agency is the largest independent market research agency in the Republic of Ireland with a staff of close to 50

RED C UK

Our fast-growing UK agency, that specialises in international qualitative and quantitative research in the media, sports and kids industries

Relish Research

Our newly acquired UK based research business, that specialises in understanding customers and helping subscription based business in the UK market

Worldwide Independent Network

Partner agencies in 35 markets across the globe help us design international projects with local market insights

We help brands grow by clearly understanding human needs and behaviour

Understanding Behaviour

We measure behaviour, needs, and attitudes to better understand opportunities and target the market

Building Brands

We know how to build brands, through mental availability, distinctiveness, emotional connections and differentiation.

Improving Experiences

We map customer journeys, understand pain points, and monitor moments of truth to help you delight and retain customers.

Underpinned by understanding of real human behaviour, and using a set of specially designed products
