Opinion Poll Report October 2025

JN. 761624

Methodology and Weighting

- RED C interviewed a random sample of **1,012** adults aged 18+ online between 16th – 21st October 2025
- An online approach was used, among our bespoke online panel RED C Live.
- Interviews are conducted across the country and the results weighted to the profile of all adults.
- Panellists were chosen at random to complete the poll, with quotas set and weights allocated on age, gender, class, region, education level & working status to ensure a nationally representative sample.
- A further past vote quota is included that looks at how people on our panel voted at the last general election and controls this to ensure it is close to the actual results.
- An additional past vote weight based on how people voted in both the last local and general elections is also applied
- Vote intention data is also weighted to take account of claimed likely turnout on the day of an election.
- In all respects the poll was completed to opinion polling guidelines set out by both ESOMAR & AIMRO

RED C LIVE

The highest online research quality standards in the industry

- Over 40,000 panellists in place – the most robust online panel in Ireland
- Both online and offline ongoing recruitment, with between 200-500 new people recruited per month on average
- Deliberate efforts are made to recruit older consumers who are generally more difficult to find.
- RED C Live has proven to hold **higher numbers of difficult to reach sample profiles including those aged 65+ vs. leading panel providers.** As such we can deliver fully nat. rep samples across all age

Pre-Screening

All respondents are pre-screened and invited to take part in the survey based on the information held on them in the panel.

Bot Capture

Honeypot checks with hidden questions in the code that respondents can't see and if answered they are removed from the data.

Fair Reward

We pay respondents fair rewards of €1 per 5 mins in cash for survey completion to ensure quality attention is given.

Logic Traps

We have inbuilt logic questions and failures at these questions are rejected.

Time Delays

All surveys have in-built time delays from the appearance of questions to the presentation of response options.

Reviews 406 • Excellent

RED C Polling Accuracy

Closest pollster again at General Election 2024

RED C are delighted with the accuracy of our polling at the recent Irish General Election in Nov 2024. The final RED C Business Post poll had the joint best average error across all parties for our final poll, and the most accurate by far across the three main parties, correctly predicting that Fianna Fáil would have the largest vote share and that they would benefit most from transfers, and was more accurate than the exit poll.

The accuracy of our final poll conducted online vs. polls conducted face to face with larger sample sizes, confirms the ability of online polling to accurately predict elections.

The accuracy of our polls once again underlines the high quality of our research, in particular the quality controls for our online panel and the statistical controls and weighting matrices used to ensure a representative sample.

The RED C published polls in the Business Post, clearly gave the insight to the wider population very accurately from the start of the campaign. Our final poll (figure 1 below) had an average error of just 0.8% the lowest error seen across all polls, and ahead of the exit poll.

We also correctly predicted that Fianna Fáil would take the greatest vote share. In fact, our average error across the three main parties was just 0.9%. The most accurate by far across all polls conducted in the closing stages of the campaign.

RED C were also the most accurate at predicting the GE 2020 election result, using both a telephone and an online methodology

Polling is conducted on general election vote intention, and should not be compared with other second tier elections.

RED C final GE 2024 Poll had an average error of just 0.8%

Final Online Poll During GE 2024

01

Vote Intention @ General Election

First preference vote intention – 26th October 2025

With change vs. Last Poll September 2025

Q. If the general election was tomorrow which party or independent candidate do you think you would give your first preference vote to? (Past vote weighted)

(Base: All adults 18+ who will vote)

First preference vote intention – 26th October 2025

The chart below shows the current claimed first preference party support, and also an estimate of the margin of error that should be applied to each, showing the possible range of support for each party.

() shows the possible range of support for each party based on an estimated average margin of error calculation

Note: Margin of error for smaller parties may be smaller

Q. If the general election was tomorrow which party or independent candidate do you think you would give your first preference vote to? (Past vote weighted)
(Base: All adults 18+ who will vote)

First preference vote intention

Shown over time and vs. last General Election Results

Q. If the general election was tomorrow which party or independent candidate do you think you would give your first preference vote to? (Past vote weighted)
(Base: All adults 18+ who will vote)

Core vote intention to turnout weighted data process

26 th October 2025	Core data	Core data with prompt for most likely party ⁽¹⁾	Undecided/ Non Voters Removed ⁽²⁾	Turnout Weighted ⁽³⁾
Sinn Féin	19%	20%	24%	23%
Fine Gael	14%	16%	18%	19%
Fianna Fáil	13%	14%	17%	17%
An Independent Candidate	9%	11%	12%	12%
Social Democrats	7%	7%	9%	9%
Independent Ireland	4%	5%	5%	5%
Labour Party	3%	3%	4%	4%
Aontú	4%	4%	4%	4%
Green Party	3%	3%	3%	3%
People Before Profit-Solidarity	3%	3%	3%	3%
Other	1%	1%	1%	1%
Would not vote	3%	3%		
Undecided	17%	10%		

Notes

1. For those that initially suggest they are undecided, we prompt with an extra question to ask which party they are most likely to vote for at this moment in time.
2. After this prompt we remove those that still say they are undecided, or would not vote, and re-proportion on those expressing a preference.
3. Turnout weighting is added based on an algorithm that combines data on how likely someone is to say they plan to vote at the next GE on a 10-point scale, and whether they actually voted at the last election (if they were eligible to do so).

First preference vote intention x demographics

Note: Results on sub sample of the population are based on a much smaller sample size per group, and as such have a much higher margin of error. The results should therefore be treated with caution

26 th October 2025		Gender		Age			Social Class		Region			
Total		Male	Female	18-34	35-54	55+	ABC1	C2DE	Dublin	Rest of Leinster	Munster	Conn/ Ulster
Sinn Féin	23%	25%	20%	26%	24%	19%	21%	26%	21%	22%	20%	29%
Fine Gael	19%	18%	19%	9%	18%	25%	20%	16%	20%	18%	17%	19%
Fianna Fáil	17%	15%	19%	14%	18%	17%	17%	13%	12%	14%	27%	13%
An Independent Candidate	12%	11%	15%	5%	18%	12%	12%	15%	10%	16%	12%	12%
Social Democrats	9%	8%	10%	15%	7%	6%	10%	7%	8%	10%	9%	9%
Independent Ireland	5%	6%	4%	5%	5%	4%	3%	7%	5%	6%	3%	5%
Labour Party	4%	5%	3%	8%	1%	5%	6%	2%	5%	7%	3%	-
Aontú	4%	5%	4%	7%	3%	4%	5%	5%	8%	1%	5%	4%
Green Party	3%	3%	4%	4%	4%	2%	4%	3%	4%	4%	2%	2%
People Before Profit-Solidarity	3%	2%	3%	6%	2%	3%	3%	4%	7%	2%	2%	1%
